MV RIDES

SKYBLAZER™

PRODUCT SHEET

SKYBLAZER™

The Skyblazer™ is a thrilling new ride where six to twenty-four guests are loaded onto the disc-shaped vehicle. Once securely strapped into the roller coaster-style restraint, the ride ascends in an arc path to a 200-foot drop height. Then, as the vehicle begins to fall and swing, the disc rotates, providing multiple thrills.

Spectacular during the day, the ride's custom lighting package features a "whimsical nighttime ride experience" for riders and spectators alike.

Build

Design

- One-of-a-kind thrill ride.
- Vehicle ascends and is held at the top, building suspense while providing guests with a fantastic view.
- Entire family, and even multiple families, can all ride together.
- Provides a dynamic visual spectacle both during the day and at night.
- The updated seating arrangement, plus the use of the pendulum damper, allows for SkyBlazer™ to have up to ten times the capacity of the original SkyCoaster® attraction.
- Latest creation of legendary ride and attraction inventor Bill Kitchen.
- Great return on investment.
